Chair

2026/06/8	The Council expressed its appreciation for the valuable contributions made by volunteers across the village, particularly in the Burial Ground and other Parish Council-owned and managed areas, including the village green. It was agreed that all volunteers working on Parish Council managed areas must complete and sign an appropriate document to ensure compliance with insurance, health and safety, and risk management requirements. This approach is already standard practice in several other parish councils. The importance of clearly communicating this requirement to residents and volunteers was emphasised. The Council considered three proposals as listed in the two quotations received and following detailed consideration all were in favour of pursuing a contractor to undertake the maintenance of vegetation and grass cutting within the Burial Ground. RESOLVED 1. To appoint a contractor to undertake maintenance work to cut back specified overgrown hedges and weeds, based on the two quotations received. 2. To appoint a contractor for future grass cutting and maintenance around gravestones, to ensure appropriate oversight, continuity, and formal management arrangements, and in response to a recent public concern. 3. That prior to formally awarding the contract, members of the Burial Ground team would meet with local volunteers currently cutting the grass to explain the Council's decisions and discuss opportunities for continued voluntary support on work outside the contracted scope. Publication of these Minutes and formal contract offer would be delayed for this to take place. Following further discussion relating to the awarding of the Contract, the quotation from Mr Richard Gregg, dated 8 June 2026, for grass cutting and vegetation management within the Burial Ground was, by a majority vote in favour, APPROVED.
